PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on experience in full-stack MERN development, building responsive web applications with React.js, Node.js, Express.js, and MongoDB. Skilled in REST API design, JWT-based authentication, and cloud deployment using AWS and Docker. Strong problem-solving foundation with 200+ Data Structures & Algorithms challenges solved, and practical exposure to blockchain development through applied training. Seeking Software Engineer / Full Stack Developer roles to contribute to scalable, production-quality software.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C++, SQL

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, HTML5, CSS3, Axios, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, MySQL

Cloud & DevOps: AWS (EC2, S3, IAM, EBS, VPC), Docker, Vercel, Netlify, Render, GitHub Actions

Tools: Git, GitHub, Postman, VS Code

Core CS: Data Structures & Algorithms, DBMS, Object-Oriented Programming, MVC Architecture

EXPERIENCE

Blockchain Technology Trainee — MetaCrafters / Chandigarh University

June 2024 – August 2024

- Completed a Summer Programme on Blockchain Technology using Ethereum and Polygon, gaining mentor-guided, practical exposure to blockchain fundamentals and EVM-based development.
- Completed the JS PROOF (Beginner Course) and ETH PROOF (Beginner EVM Course) modules, building foundational skills in JavaScript for blockchain and Ethereum Virtual Machine concepts.
- Gained industry-oriented, real-world project exposure through structured mentorship in the Ethereum and Polygon blockchain ecosystems.

PROJECTS

DomesticaEase — Home Services Platform

Feb 2023 – May 2023

- Engineered a full-stack MERN platform connecting users with household service providers (maids and cooks) through a responsive, intuitive interface.
- Implemented JWT-based authentication and service-booking workflows, integrating a React.js frontend with Node.js/Express.js REST APIs and MongoDB for persistent data storage.
- Structured backend architecture using MVC design principles to support secure, maintainable API endpoints.

Tech Stack: React.js • Node.js • Express.js • MongoDB • JWT • REST APIs

Sweet Shop Management System

Jan 2024 – April 2024

- Developed a full-stack MERN web application for retail management, featuring a product catalog, shopping cart, and admin dashboard.
- Designed RESTful APIs with Node.js and Express.js and implemented JWT authentication to manage catalog, cart, and order operations.
- Built a responsive front-end interface using React.js, integrating MongoDB for persistent product and order data.

Tech Stack: React.js • Node.js • Express.js • MongoDB • JWT • REST APIs

EDUCATION

Bachelor of Engineering (B.E.), Computer Science Engineering

July 2022 – June 2026

Chandigarh University, Mohali, Punjab

CERTIFICATIONS

- NPTL Elite Certificate — Foundation of Cloud Computing
- MetaCrafters Blockchain Technology Certification — Ethereum and Polygon (Chandigarh University)

LEADERSHIP & ACHIEVEMENTS

- Joint Secretary, DroidLinX Club — Led Web Development workshops and mentored students, organizing hands-on sessions that fostered a peer learning community.
- Solved 200+ coding challenges, strengthening proficiency in Data Structures and Algorithms.
